

**BT/CT/RAD Meeting**  
**Meeting Minutes**  
**Tuesday, October 18, 2011, 10:00 AM**

Attendees: Tracy Stiles, Tanya Swanson, Deborah Carter, Beckie Hastings, Nora McElroy, and Sydney Fuller-Jones

Facilitator: Tracy Stiles

Recorder: Sydney Fuller-Jones

Next Scheduled Meeting: November 18<sup>th</sup> , 10:00am – 11:00am, Auditorium

- Tanya informed us that the pre-steps have been completed for the full scale water exercise that Cheryl reported on at our last meeting. The actual water drill will be done tomorrow.
- Tanya reported a follow-up on the 3 sets of Petri dishes found by a dog walker in Worcester that were labeled poison and radioactive. After a full investigation, it was discovered that the dishes were a part of a school teacher's science experiment. They were trying to collect ants, and the stickers that were used (poison/radioactive) had been donated.
- Deb informed us that they have been moving right along with their Sentinel Lab training; they have had 3 so far this year and are proposing 4 more trainings for next year, as well as 4 Bio Safety and Bio Security, and 4 Packaging and Shipping trainings (all subject to approval). Also, subject to approval are 2 First Responder classes that Cheryl is working on.
- Beckie Hastings had no updates.
- Epi had no updates.
